

Graffiti Eater Ghost

DESCRIPTION

Graffiti Eater Ghost is a user friendly, solution designed to remove deep ingrained graffiti stains and shadows from all types of building surfaces.

Graffiti Eater Ghost has been specially blended to produce a product capable of removing graffiti shadows caused by paint, leather dyes and texta pens. Graffiti Eater Ghost contains none of the Haz-Chem chemicals usually found in paint removers and is completely free of the very hazardous, caustic, formic acid and methylene chloride. Graffiti Eater Ghost works slowly to breakdown any remaining pigment from graffiti shadows. It is applied after Graffiti Eater All Rounder, Graffiti Eater Soft and Graffiti Eater Masonry to remove any remaining shadows.

APPLICATION

The method of application depends on the type of surface, size and nature of the graffiti and how long it has been there for, eg. graffiti which has been on the surface for some time will be harder to remove than graffiti that has not cured or has not been baked by the sun. Ideally removal should occur within 24 hours.

Apply Graffiti Eater Ghost by applicator brush and leave in contact for several hours. Apply more Graffiti Eater Ghost in the same manner, repeating the process if shadows still remain. Once the process is complete, it is essential that the chemical and paint residue is wiped off the surface and the neutralising chemical Graffiti Eater Neutraliser is applied to prevent further chemical reactions.

Graffiti Eater Ghost may not be totally effective on all graffiti as experimentation by the 'community artists' produces new 'cocktails' continually.

We recommend regular removal processes be undertaken rather than allowing the graffiti to build up, as the removal process will then be harder and more costly in labour and materials.

OH&S

Ensure adequate ventilation during use. Avoid contact with skin and eyes, wear eye protection, Vitron or PVA gloves and solvent resistant overalls during use.

Suitable for: shadows caused by:

Enamel paints	- very good
Leather dyes	- very good
Acrylic paints	- very good
Texta pens	- very good

IMPORTANT NOTICE TO CUSTOMERS
